

**Upon completion of this workshop trainees should:**

- Understand how to prevent hazardous area fires and explosions
- Be up-to-date with changes in the relevant hazardous area Australian Standards
- Understand legislation, compliance and competency
- Have existing hazardous area knowledge reinforced
- Have a sound understanding of how Group II and Group III hazardous areas are classified
- Understand hazardous area classification drawings
- Understand equipment markings
- Have a sound understanding of sources of ignition
- Have a sound understanding of how:
  - Explosion protection techniques are used to make electrical equipment safe for use in hazardous areas.
  - To use the relevant Australian Standards to select, install, inspect, test and maintain hazardous area electrical equipment and wiring.
  - Hazardous area electrical equipment certified to other Standards is selected and assessed to ensure it offers the equivalent level of safety to the relevant Australian Standard.

**Date of the Workshop:** Tuesday 13 - Thursday 15 November 2019

**Time:** 7.30-8.00 am Registration

Workshop runs from 8.00 am to 5.00 pm

**Venue:** Ibis Styles Adelaide Manor

574 Main North Road

Gepps Cross, SA 5094

**Accommodation:** Available at venue. A special rate applies when attending functions. Telephone 08 8349 4999 for a reservation.

**CPD:** This workshop provides 27 hours of Continuous Professional Development (CPD) to assist practicing professional engineers and technicians to develop and maintain their hazardous area technical skills and knowledge.

**Recognition:** *'Esso Training and Procedures Group has endorsed us as an approved provider of "Hazardous Area Wiring" refresher training for Esso maintenance and designated contractor technicians - Marlene Huty, EAPL training Coordinator*

**Full Workshop Fee:** \$900.00 + \$90.00 (GST) = \$990.00 per person.  
Fee must be paid by start of the workshop.

**Workshop fee includes:**

- Comprehensive workshop notes
- Lunches
- Refreshments
- Workshop certificate

**Early Bird Discount:** Save an amazing **\$110.00** per person

**Early bird fee: \$800.00 + \$80.00 (GST) = \$880.00** per person.  
Fee must be paid by Monday 29 Oct 2019. Enrolment form and payment are required by the due date if discount is to apply.

**Enrolment:** Please complete and email the enrolment form to secure your place on this workshop. Upon receipt of your enrolment an invoice will be forwarded to you for payment by MasterCard, Visa, cheque or EFT. Payment is required by commencement of the workshop.

**Substitutes:** If an enrolled person is unable to attend a substitute is allowed at no extra charge. Details must be emailed in advance.

**Transfers:** Enrolment transfers to another workshop are not permitted.

**Cancellations:** An \$82.50 fee applies to each cancelled workshop place received in writing by Monday 29 Oct 2019. Regrettably, no refunds are available after this date or if a trainee fails to attend and no substitute fills the place. The workshop folder will be posted to the enrolled trainee. A letter will be mailed following payment in full advising a 40% discount applies on one future 3-day workshop place for each cancelled or no show booking. This offer is valid for 12 months and no further discounts will apply.

**Cut-off Date:** The final date for enrolment on this workshop is Tuesday  
**6th November 2019**

## Workshop Outline

### 1) Introduction

- Hazardous areas
- Who is responsible
- Statute laws and standards
- AS/NZS3000 non compliance issues
- Qualifications and competency

### 2) Hazardous Area Classification

- Ignition curves
- Zone classification - Group II
- Gas classification - equipment group
- Temperature classification - T Class
- Ambient temperature range of explosion protected equipment
- Area classification - Group II
- Combustible dusts - Group III

### 3) Ignition

- Sources of ignition
- Ignition triangle

### 4) Types of Protection

- Ex d - Flameproof
- Ex e - Increased Safety
- Ex n - Non-Incendive
- Ex p and Ex pD - Pressurization
- Ex m and Ex mD - Encapsulation
- Ex o - Oil Immersion
- Ex q - Powder/Sand Filling
- Ex s - Special Protection
  
- Ex t - 3 U R W H F W L R Q
- Ex i and Ex iD - Intrinsic Safety

### 5) Electrical Protection of Hazardous Area Equipment

- Isolation
- Locked in off position
- Overcurrent, internal short circuit and earth fault protection
- Protection of Intrinsically Safe equipment

### 6) Equipotential Bonding

### 7) Selection of Equipment

- List of Australian Standards
- AUS Ex, ANZEx and IECEx certified equipment
- Permitted electrical equipment
- Other standards certified equipment

### 8) Theory of Intrinsic Safety

- Zener diodes
- Zener barrier
- "Ex ia", "Ex ib" and "Ex ic" Zener barriers
- Earthing
- Isolation barrier theory

### 9) Certification

- Certification of electrical equipment
- Simple apparatus
- Energy storing Ex i equipment
- Cable parameters of Ex i equipment
- Matched power of Ex i equipment
- Matching Ex i equipment and Ex i barrier certificates

### 10) Installation of

- Ex d - Flameproof
- Ex e - Increased Safety
- Ex n - Non-Incendive
- Ex p and Ex pD - Pressurization
- Ex m and Ex mD - Encapsulation
- Ex o - Oil Immersion
- Ex q - Powder/Sand Filling
- Ex s - Special Protection

E \ ( Q F O R V X U H

- Ex t - 3 U R W H F O W R L V R X Q U H E \ (
- Ex i and Ex iD - Intrinsic Safety
- Ex i - Insulation test

### 11) Inspection and Testing

- Inspection schedules
- Testing

### 12) Maintenance and Repair

### 13) Summary

### 14) Self Appraisal

- Appraisal questionnaire
- Appraisal questionnaire answers

### 15) Discussion

## **Delivery of Workshop**

Workshops are presented using PowerPoint slides, a video clips, video tapes and real hazardous area electrical equipment.

## **The Workshop Author and Presenter**

Colin Baker is a practising professional engineer, qualified workplace assessor (Certificate IV) and workplace trainer who has been involved with surge protection, intrinsic safety and hazardous area installations since 1970. He has worked for some of the major manufacturers of hazardous area instrumentation and has gained significant surge protection and hazardous area experience through designing, installing, commissioning and inspecting equipment and installations.

Colin has provided training and technical support to many chemical, petrochemical and public utility companies around the world and has written and presented numerous papers locally and internationally.

An H Class Licensed Electrical Inspector (Vic) and an Accredited Auditor (Qld), Colin is qualified to inspect hazardous area electrical installations under the 2009 Victoria Electricity Safety (Installation) Regulations and the 2002 Queensland Electrical Safety Regulation.

He sits on the joint Australian/New Zealand Standards committees MS-066 (was P-012) for hazardous area competency, EL-014 for equipment in explosive atmospheres and MS-011 for classification of hazardous areas. He sits on sub-committees EL-014-4 for standards on Intrinsic Safety, Encapsulation, Special Protection and Combustible Dusts; ME-026-02 for standards on industrial hazardous area trucks; EL-014-8 for standards on spray painting booths and has provided input for EL-014-9 for standards on gas detectors.

Explosion Protection Technology is a leading independent and Australian owned consulting and training organisations founded by Colin. The company specialising in the safety of hazardous area electrical installations based on the current Australian Standards including:

- Classifying hazardous areas
- Checking electrical installations located in hazardous areas
- Assisting clients to obtain certification of hazardous area electrical equipment
- Running hazardous area workshops

## Enrolment Form

### Hazardous Area Australian Standards Simplified 3-Day Workshop Tuesday 13 - Thursday 15 Nov 2019 Adelaide (Gepps Cross)

Please print clearly when completing this form

Name: Mr / Ms / Dr

\_\_\_\_\_  
(First Name and Surname for Name Badge. If name is different for Certificate  
please print below.)

Job Title:

Company Name:

Address:

Postcode

Telephone:

Email:

**To secure your place in this workshop please complete this Enrolment Form and  
the Payment Form email [sue@eptech.com.au](mailto:sue@eptech.com.au)**

The payment can be made by credit card (MasterCard or Visa), cheque or EFT. A  
Tax Receipt will be forwarded to you upon receipt of payment.

### **Checklist:** (Tick the box to ensure your booking is complete)

**Remember if you book and pay by the due dates (see Page 3), you will receive substantial  
discounts off the full workshop price.**

- Complete Enrolment Form
- Complete Payment Form
- Forward both completed forms by email. Contact details below.

### Payment Form

Please print clearly and fax or email this Payment Form together with your Enrolment Form and Purchase Order (if applicable).

Company Name: \_\_\_\_\_

Name of Person making payment: \_\_\_\_\_

Telephone: \_\_\_\_\_

Fax: \_\_\_\_\_

Email: \_\_\_\_\_

Date of Payment: \_\_\_\_\_

Amount being paid: \_\_\_\_\_

**Workshop fees:** Ensure we receive your Enrolment Form and your payment together.

**By Monday 29 Oct 2018:** \$800.00 + \$80.00 (GST) = \$880.00 per person

**After Monday 29 Oct 2018:** \$900.00 + \$90.00 (GST) = \$990.00 per person

**The workshop fee must be paid by start of the workshop.**

Please tick the method of payment.

**EFT** Bank: ANZ, 92 High Street, BERWICK, VICTORIA, 3806
